To Whom It May Concern:

I am writing on behalf of Daniel Pellito. Mr. Pellito was a Life Science and Engineering/STEM teacher at Lockhart Middle since 2010. I have been his direct supervisor/Principal, and Mr. Pellito was a driving force in moving Lockhart towards a STEM Magnet.

Mr. Pellito is the teacher that students beg to have. Students gravitate to him because of his passion for science and his out-of-the-box instructional style. Mr. Pellito coordinated with other schools and district personnel to bring more project-based learning to our school. As a facilitator for our STEM club, Mr. Pellito would bring real world experiences to the students and numerous awards to Lockhart.

If asked to describe Mr. Pellito, the staff would call him a Renaissance Man. Science and Engineering were just a few of his interests. He would never hesitate to take on a new challenge – from becoming our webmaster to emcee.

Daniel Pellito would be an asset to your organization.

Please contact me if you need further information.

Sincerely,

A handwritten signature in black ink that reads "Allison Kirby". The signature is written in a cursive style.

Allison Kirby
Principal
